THANK YOU FOR PURCHASING A KAWAI DIGITAL PIANO!

This Kawai digital piano is a revolutionary new keyboard instrument, combining the latest in electronic advances with traditional craftsmanship inherited from Kawai’s many years of experience building fine pianos. The CL36 keyboard provides the touch response and full dynamic range required for a superb performance of piano, harpsichord, organ, and other instruments. The CL36 digital piano’s Lesson function helps performers to practice the piano with a collection of etudes from Czerny and Burgmüller, or songs from Alfred’s Basic Piano Library lesson book (USA, Canada, Australia and UK only).

In addition, the CL36 digital piano is equipped with industry standard MIDI (Musical Instrument Digital Interface), allowing a number of other electronic instruments to be controlled and played simultaneously, creating a range of musical possibilities.

This Owner’s Manual contains valuable information to help performers make full use of the instrument’s varied capabilities. Please read all sections carefully and keep this manual handy for future reference.

Instructions pertaining to a risk of fire, electric shock, or injury to persons

CAUTION
Risk of electric shock
Do not open

WARNING
To reduce the risk of fire or electric shock, do not expose this product to rain or moisture.

AVIS : RISQUE DE CHOC ELECTRIQUE - NE PAS OUVRIR.

To reduce the risk of electric shock, do not remove cover (or back).
No user-serviceable parts inside. Refer servicing to qualified service personnel.

The lighting flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated “dangerous voltage” within the product’s enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the product.

Examples of Picture Symbols

- denotes that care should be taken. The example instructs the user to take care not to allow fingers to be trapped.

- denotes a prohibited operation. The example instructs that disassembly of the product is prohibited.

- denotes an operation that should be carried out. The example instructs the user to remove the power cord plug from the AC outlet.

Read all the instructions before using the product.

1) Read these instructions.
2) Keep these instructions.
3) Heed all warnings.
4) Follow all instructions.
5) Do not use this apparatus near water.
6) Clean only with dry cloth.
7) Do not block any ventilation openings. Install in accordance with the manufacturer’s instructions.
8) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9) Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prongs are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10) Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11) Only use attachments/accessories specified by the manufacturer.
12) Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
13) Unplug this apparatus during lightning storms or when unused for long periods of time.
14) Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or object have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped. polarized or grounding-type plug. A polarized plug has two blades with one wider than the other.
WARNING - When using electric products, basic precautions should always be followed, including the following.

**WARNING** Indicates a potential hazard that could result in death or serious injury if the product is handled incorrectly.

The product should be connected to an AC outlet of the specified voltage.

- Do not insert or disconnect the power cord plug with wet hands.
- Take care not to allow any foreign matter to enter the product.
- When disconnecting the AC power cord’s plug, always hold the plug and pull it to remove it.
- The product is not completely disconnected from the power supply even when the power switch is turned off. If the product will not be used for a long time, unplug the AC power cord from the AC outlet.
- Do not use the product in wet areas or areas close to water.
- Do not stand on the product or exert excessive force.
- When using the headphones, do not listen for long periods of time at high volume levels.
- Do not disassemble, repair or modify the product.
- Always follow the assembly instructions carefully.
- Do not lean against the keyboard.

Failure to do so may result in:

- Damage or an accident.
- Product breakdown, electric shock or short-circuit.
- Over-heat the product, resulting in fire.
- Falling over, resulting in injury.
- Electric shock.
- Breakdown or short-circuit.
- Over-heat the product, resulting in fire.
- Short-circuit, leading to an electric shock, or a fire.
- Electric shock.
- Breakdown or injury.
- Hearing problems.

Do not stand on the product or exert excessive force.

- Do not insert or disconnect the power cord plug with wet hands.

Failure to do so may result in:

- Electric shock.

Do not use the product in wet areas or areas close to water.

- Do not stand on the product or exert excessive force.

Failure to do so may result in:

- Breakdown or injury.

Always follow the assembly instructions carefully.

- Do not insert or disconnect the power cord plug with wet hands.

Failure to do so may result in:

- Damage or an accident.

Do not lean against the keyboard.

- Do not insert or disconnect the power cord plug with wet hands.

Failure to do so may result in:

- The product to fall over, resulting in injury.

This product may be equipped with a polarized line plug (one blade wider than the other). This is a safety feature. If you are unable to insert the plug into the outlet, contact an electrician to replace your obsolete outlet. Do not defeat the safety purpose of the plug.
CAUTION Indicates a potential hazard that could result in injury or damage to the product or other property if the product is handled incorrectly.

Do not use the product in the following areas.
- Areas, such as those near windows, where the product is exposed to direct sunlight
- Extremely hot areas, such as near a heater
- Extremely cold areas, such as outside
- Extremely humid areas
- Areas where a large amount of sand or dust is present
- Areas where the product is exposed to excessive vibrations
- Areas where the product is unstable.

Using the product in such areas may result in product breakdown. Use the product only in moderate climates (not in tropical climates).

Do not place the product near electrical appliances such as TVs and radios.

- Doing so may cause the product to generate noise.
- If the product generates noise, move the product sufficiently away from the electrical appliance or connect it to another AC outlet.

Use only the AC adaptor included with this instrument to power the instrument.

- Do not use other AC adaptors to power this instrument.
- Do not use the included AC adaptor or AC power cord to power other equipment.

When connecting the AC power cord and other cords, take care not to get them tangled.

- Failure to do so may damage them, resulting in fire, electric shock or short-circuit.

This product shall be near the AC outlet and the power cord plug in a position so that it can readily be disconnected in an emergency because electricity is always charging while the plug is in the AC outlet even in a power switch off condition.

Before connecting cords, make sure that the power to this product and other devices is turned OFF.

- Failure to do so may cause breakdown of this product and other devices.

Do not wipe the product with benzene or thinner.

- Doing so may result in discoloration or deformation of the product.
- When cleaning the product, put a soft cloth in lukewarm water, squeeze it well, then wipe the product.

Ensure that the ventilation is not impeded by covering the ventilation openings with items, such as newspaper, table-cloths, curtains, etc.

- Failure to do so may over-heat the product, resulting in fire.

Do not drag the product on the floor. Take care not to drop the product.

- Please lift up the product when moving it.
- Please note that the product is heavy and must be carried by more than two persons.
- Dropping the product may result in breakdown.

Do not place naked flame, such as lighted candles on the product.

- Doing so may cause the illumination to fall over, resulting in fire.
The product should be located so that its location or position does not interfere with its proper ventilation. Ensure a minimum distance of 5cm around the product for sufficient ventilation.

The product should be serviced by qualified service personnel when:

- The power supply cord or the plug has been damaged.
- Objects have fallen, or liquid has been spilled into the product.
- The product has been exposed to rain.
- The product does not appear to operate normally or exhibits a marked change in performance.
- The product has been dropped, or the enclosure damaged.

Notes on Repair
Should an abnormality occur in the product, immediately turn the power OFF, disconnect the power cord plug, and then contact the shop from which the product was purchased.

CAUTION:
To prevent electric shock, match wide blade of plug to wide slot, fully insert.

ATTENTION:
Pour éviter les chocs électriques, introduire la lame la plus large de la fiche dans la borne correspondante de la prise et pousser jusqu’au fond.

Instruction for AC power cord (U.K.)

IMPORTANT
THE WIRES IN THIS MAINS LEAD ARE COLOURED IN ACCORDANCE WITH THE FOLLOWING CODE.

BLUE : NEUTRAL
BROWN : LIVE

As the colours of the wires in the mains lead of this apparatus may not correspond with the coloured markings identifying the terminals in your plug, proceed as follows:
The wire which is coloured BLUE must be connected to the terminal which is marked with the letter N or coloured BLACK.
The wire which is coloured BROWN must be connected to the terminal which is marked with the letter L or coloured RED.
Do not plug either terminal of the power cord to the the ground of AC outlet on the wall.

FCC Information
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.
If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a different electrical circuit from the receiver.
- Consult the dealer or an experienced radio/TV technician for help.

Canadian Radio Interference Regulations
This instrument complies with the limits for a class B digital apparatus, pursuant to the Radio Interference Regulations, C.R.C., c. 1374.

An information on Disposal for users
If your product is marked with this recycling symbol it means that, at the end of its life, you must dispose of it separately by taking it to an appropriate collection point. You should not mix it with general household waste. Disposing of this product correctly will prevent potential negative effects on the environment and human health which could otherwise arise due to inappropriate waste handling. For further details, please contact your local authority. (European Union only)
1. PART NAMES AND FUNCTIONS

This section explains the locations and functions of the panel sliders and buttons.

◇ CONTROL PANEL

○ CONCERT MAGIC
  The Concert Magic function allows the CL36 digital piano to be enjoyed by those with little or no experience of playing the piano, providing the correct accompaniment and melody by simply pressing a single key on the keyboard. (Page 17)

○ RECORDER
  The Recorder function allows a performance to be recorded and played back. (Page 23)

○ METRONOME
  The Metronome function provides a steady rhythm with which to aid piano practice. The tempo, time signature, and volume of the metronome can be freely adjusted. (Page 15)

○ LESSON
  The Lesson function provides access to built-in etudes or Alfred lesson books (USA, Canada, UK, AU only), offering an enjoyable piano learning experience. (Page 20)

○ SOUND SELECT
  The SOUND SELECT button are used to select the sound that will be heard when playing the CL36 digital piano. (Page 12)

◇ USING THE ENCLOSED FUNCTION LABELS

The three function labels included with the CL36 digital piano provide a reference for the instrument's various functions and should be attached to the back of the keyboard.

Position the first function label so that the left end, marked ‘CONCERT GRAND (off/-)’ is aligned with the lowest key (A-1), then position the second label beside the first. Finally, position the third smaller label so that ‘AUTO POWER OFF’ is aligned with the highest key (C7).
HEADPHONE JACKS
The PHONES jacks located on the left of the CL36 digital piano, are used to connect stereo headphones to the instrument. Two pairs of headphones can be connected and used simultaneously.

POWER
The POWER button is used to turn the CL36 digital piano on and off. Be sure to turn off the instrument after playing. (Page 10)

MASTER VOLUME
The MASTER VOLUME slider controls the master volume level of the internal speakers and connected headphones. Move the slider upward to increase the volume, and downward to decrease the volume. (Page 10)

PEDALS
The CL36 digital piano features three pedals—just like a grand piano: Damper, Sostenuto and Soft.

- Damper pedal
  Sustains the sound after hands are lifted from the keyboard. The damper pedal is also capable of responding to half pedaling.

- Sostenuto pedal
  Depressing this pedal after playing the keyboard and before releasing the keys sustains the sound of only the keys just played. Any keys that are pressed after the Sostenuto pedal is depressed will not be sustained after the keys are released.

- Soft pedal
  Depressing this pedal softens the sound and reduces its volume.
2. GETTING STARTED

1) BASIC OPERATIONS

This section provides the basic procedures for turning the power on and playing the CL36 digital piano.

- **Step 1**
  Connect one end of the AC power adaptor to the CL36 digital piano’s power jack and the other end of the cable to a wall AC outlet.

- **Step 2**
  Press the POWER button to turn on the power.

  The LED indicator for the SOUND SELECT button will turn on, and the Concert Grand sound will be selected automatically.

- **Step 3**
  Adjust the volume level using the MASTER VOLUME slider.

  The MASTER VOLUME slider controls the volume level of the speakers and connected headphones. Set the volume to a comfortable listening level - the middle is often a good starting point.

- **Step 4**
  Play the piano.

  The sound of a Concert Grand piano will be heard as the keys are pressed.

  A different sound can be selected by following the procedures described in ‘SELECTING A SOUND’ (page 12).
DEMONSTRATION SONGS

The internal demonstration songs provide an excellent introduction to the capabilities of the CL36 digital piano. Each preset sound is introduced by a different piece of music, as shown below.

- Concert Grand ........Kawai original
- Concert Grand 2 ......Valse du Petit Chien / Chopin
- Studio Grand ..........Kawai original
- Modern Piano ..........Kawai original
- Classic E.Piano ......Kawai original
- Modern E.Piano ......Kawai original
- Jazz Organ ..........Kawai original
- Church Organ ..........Chorale Prelude "Wachet auf, ruft uns die Simme." / Bach
- Harpsichord ..........French Suite No.6 / Bach
- Vibraphone ..........Kawai original
- String Ensemble ......Le quattoro stagioni ‘La Primavera’ / Vivaldi
- Slow Strings ..........Kawai original
- Choir ..................Londonderry Air / Irish folk song
- New Age Pad ..........Kawai original
- Atmosphere ..........Kawai original

Kawai regret that sheet music for Kawai original demo songs is not available.

Step 1

Press the CONCERT MAGIC and LESSON buttons simultaneously.

The LED indicators for the CONCERT MAGIC and LESSON buttons will start to flash, and the demo song for the Concert Grand sound will start to play. When the Concert Grand demo song has finished, another demo song will be selected at random. This process will continue until all of the demo songs have been played.

Step 2

While listening to a demo song, press the SOUND SELECT button to skip to the next demo song.

To listen to the demo song for a particular sound, press and hold the SOUND SELECT button, then press one of the lowest 15 keys assigned to the desired sound.

Step 3

To stop the demo, press either the CONCERT MAGIC button or the LESSON button.

The LED indicators for the CONCERT MAGIC and LESSON buttons will turn off, and the demo song will stop playing.
◊ SELECTING A SOUND

When power is turned on, the Concert Grand sound will be selected automatically. There are 15 sound types and three methods to select different sounds.

◆ Method 1

Press the SOUND SELECT button repeatedly to cycle through the 15 sounds until the desired sound is selected.

- **Power-on**  
  Concert Grand (indicator ON)

- **When pressed once**  
  Concert Grand 2 (indicator flashes)

- **When pressed twice**  
  Studio Grand (indicator flashes)

- **When pressed 7 times**  
  Church Organ (indicator flashes)

- **When pressed 12 times**  
  Choir (indicator flashes)

- **When pressed 15 times**  
  Concert Grand (indicator ON)

◆ Method 2

Press and hold the SOUND SELECT button, then press one of the lowest 15 white keys to select a specific sound.

- **Hold down the button**
  
  - The lowest key
  
  - Use the enclosed ‘function label’ (page 8) for your convenience.

- **Press a white key**

- The LED indicator for the SOUND SELECT button will turn on when Concert Grand is selected. When a sound other than Concert Grand is selected, the LED indicator for the SOUND SELECT button will start to flash.

◆ Method 3

Press and hold the SOUND SELECT button for more than one second to return to the Concert Grand sound.

The LED indicator for the SOUND SELECT button will turn on once again.
2) DUAL

The DUAL function allows two preset sounds to be layered together, creating a more complex sound. For example, a piano can be layered with strings, or a church organ with a choir sound.

**Step 1**

Press and hold the SOUND SELECT button, then, from the lowest 15 white keys, press the two keys assigned to the two desired sounds simultaneously.

Press the SOUND SELECT button once to reset the sound type to Concert Grand.

---

**Example: To layer Concert Grand and Jazz Organ sounds together.**

Press and hold the SOUND SELECT button, then press the lowest white key (A) and the 7th key (G) simultaneously.

The sound of both a Concert Grand and Jazz Organ will be heard simultaneously as the keys are pressed.

Please refer to the enclosed function label, or the sound allocation diagram on page 12.
3) FOUR HANDS

The FOUR HANDS function divides the keyboard of the CL36 digital piano into separate Lower and Upper sections, adjusting the octave/pitch of each section to allow two people to play the piano together.

With the FOUR HANDS function activated, the Soft (left) pedal will be used as a damper pedal for the Lower section, and the Damper (right) pedal will be used as a damper pedal for the Upper section.

Diagram of keyboard layout with hands on keys:

**Step 1**
Press and hold the LESSON button, then press the Soft (left) pedal and Damper (right) pedal simultaneously.

The LED indicator for the LESSON button will start to flash, indicating that FOUR HANDS mode has been activated.

**Step 2**
Press the LESSON button again to deactivate FOUR HANDS mode.

The LED indicator for the LESSON button will turn off, and the digital piano will return to normal operation.

- With the FOUR HANDS function activated, selecting a different sound will affect both the Lower and Upper sections.
- It is not possible to use the Recorder function with the FOUR HANDS function activated.
- The Split Point for the FOUR HANDS functions is set to F-3, and cannot be adjusted.
4) METRONOME

Rhythm is one of the most important elements when learning music. It is important to practise playing the piano at the correct tempo and with a steady rhythm. The CL36 digital piano’s metronome function helps learners to achieve this by providing a steady beat to play along with.

♦ STARTING THE METRONOME

□ Step 1
Press the METRONOME button.

The LED indicator for the METRONOME button will turn on, and the metronome will begin counting with a 1/4 beat.

□ Step 2
Press the METRONOME button again.

The LED indicator for the METRONOME button will turn off, and the metronome will stop counting.

■ The metronome is set to a default time signature of 1/4 and tempo of 120 each time the piano is turned on.

♦ CHANGING THE METRONOME TIME SIGNATURE

The metronome produces two types of click, with a bell sound indicating the first beat of a bar - this is a 4-beat or 4/4 time signature. It is possible to select a different signature where appropriate. There are seven different types of time signature available: 1/4, 2/4, 3/4, 4/4, 5/4, 3/8, and 6/8.

The volume level of the metronome can also be changed.

□ Step 1
Press and hold the METRONOME button, then select the desired time signature by pressing one of the lowermost black keys assigned to that beat.

Use the enclosed ‘function label’ (page 8) for your convenience.

■ When the 1/4 beat is selected, only the click sound will be heard. The bell accent will not be heard.
ADJUSTING THE METRONOME TEMPO

The metronome has a tempo range of 10-300 beats per minute. The metronome tempo can be specified precisely, or gradually decreased or increased.

**Step 1**
Press and hold the METRONOME button, then use the lower white keys to either enter the desired tempo in beats per minute (BPM), or gradually decrease or increase the tempo by pressing the ‘-’ or ‘+’ keys.

To set the metronome tempo, press and hold the METRONOME button, and input either a two-digit or three-digit tempo value. The specified value will be set when the METRONOME button is released.

**Example:** To set the metronome tempo to 136 beats per minute.

**Method 1**
Press and hold the METRONOME button, then press key 1, key 3 and key 6. Release the METRONOME button.

**Method 2**
Press and hold the METRONOME button, then press the ‘-’ (off) or ‘+’ (on) keys repeatedly to gradually decrease or increase the current tempo by 2 BPM.
5) CONCERT MAGIC

The great German composer Johann Sebastian Bach once said “Playing the keyboard is simple. Just strike the right keys at the right time”. Many pianists wish it were quite that straightforward. Fortunately, Kawai have devised a method of playing the keyboard that is very simple, without even needing to strike the right keys.

With CONCERT MAGIC, absolutely anyone can sit at the CL36 digital piano and make real music - even complete beginners who have never taken a piano lesson in their life. To enjoy performing with Concert Magic, simply select one of the 40 pre-programmed songs and tap any key with a steady rhythm and tempo. Concert Magic will provide the correct melody and accompaniment notes, regardless of which keys are pressed. With Concert Magic anybody, young or old, can enjoy playing music from the moment they sit down at the CL36 digital piano.

SELECTING A SONG

The 40 Concert Magic songs are assigned to each of the first 40 white keys, and classified by song category into six groups, such as Children’s Songs, American Classics, Christmas Songs etc. Please refer to Appendix 3: ‘CONCERT MAGIC SONG LIST’ on page 38 for a complete listing of available Concert Magic songs.

Step 1

Press and hold the CONCERT MAGIC button, then press one of the lowest 40 keys assigned to the desired Concert Magic song.

The LED indicator for the CONCERT MAGIC button will turn on, indicating that the Concert Magic function has been activated.

LISTENING TO THE SONG

If the performer is already familiar with the selected Concert Magic song, he/she may wish to begin playing straight away. However, those unfamiliar with the piece may alternatively wish to listen to the song first, before attempting to play it.

Step 1

Press the PLAY/STOP button to listen to the selected Concert Magic song.

The CL36 digital piano will start to playback the selected Concert Magic song. To listen to a different song, simply repeat the procedure above.

Step 2

Press the PLAY/STOP button or CONCERT MAGIC button once again to finish listening to the Concert Magic song.
PERFORMING A SONG

Step 1

Tap out the rhythm of the selected song on any one of the piano’s 88 black or white keys.

Concert Magic songs will respond to changes in playing style. As the keys are tapped harder, the music will grow louder; if the keys are tapped more softly, the music will become quieter. Tapping faster will cause the music to speed up, while tapping slower will make the music slow down accordingly. Using Concert Magic, even inexperienced pianists can sound like they have been playing for years, simply by pressing one key with one finger.

Concert Magic is a perfect method for small children to learn music, especially when developing a sense of rhythm. For older people who may believe it is too late to learn the piano, Concert Magic offers an enjoyable first step. With Concert Magic, the CL36 digital piano can be enjoyed by everyone in the family, even those who have never touched a musical instrument in their life.

CONCERT MAGIC SONG TYPES

After playing with Concert Magic for a while, performers may feel that such playing is too easy and that there is very little to learn. While it is true that some of the songs are very easy to play, even for beginners, there are also some songs which will prove challenging, and require practice to play proficiently.

Each of the 40 Concert Magic songs fall into one of three different arrangement types, depending on the skill level required to perform them.

EASY BEAT

These are the easiest songs to play. To perform them, simply tap out a constant steady beat on any key on the keyboard.

Look at the following example, ‘Für Elise’. Press the key with a steady sixteenth note rhythm.

MELODY PLAY

These songs are also quite easy to play, especially if they are familiar to the player. To perform them, tap out the rhythm of the melody on any key on the keyboard. Singing along as the rhythm is tapped can be helpful. Play ‘Twinkle, Twinkle, Little Star’ for example. Follow the melody’s rhythm as shown.

When performing fast songs with Concert Magic, it is sometimes easier to tap two different keys with two alternating fingers in order to play at greater speed.
SKILLFUL

These songs range in difficulty from moderately difficult to difficult. To perform them, tap out the rhythm of both the melody and the accompaniment notes on any key on the keyboard, such as ‘Waltz of the Flowers’ shown below.

![Key on X X X X X X XX X X X X X](image)

It may take a little practice to perform the Concert Magic songs proficiently. A good way to learn is to listen to these pieces first, and then try to tap out the rhythms that are heard.

Please refer to Appendix 3: ‘CONCERT MAGIC SONG LIST’ on page 38 for a complete listing of available Concert Magic songs. The arrangement type is marked next to each song title as ‘EB’ for Easy Beat, ‘MP’ for Melody Play and ‘SK’ for Skillful.

CONCERT MAGIC DEMO MODES

There are three ways to listen to the Concert Magic songs in the DEMO mode.

- **ALL PLAY**
  Press the CONCERT MAGIC button and then press the PLAY/STOP button without selecting a song.
  The CL36 digital piano will play back the first Concert Magic song, followed by the remaining 39 Concert Magic songs in order.

- **RANDOM PLAY**
  Press the CONCERT MAGIC button and then press the LESSON button.
  The CL36 digital piano will play back the first Concert Magic song, followed by the remaining 39 Concert Magic songs in random order.

- **CATEGORY PLAY**
  Press and hold the CONCERT MAGIC button, press the piano key to which the desired song is assigned, and then press the LESSON button, before finally releasing the CONCERT MAGIC button.
  The CL36 digital piano will play back the selected song and then continue to play the rest of the songs in the same category.

To stop the Concert Magic demo, press the PLAY/STOP button.
3. LESSON FUNCTION

The CL36 digital piano's Lesson function helps performers to practice the piano with a collection of etudes from Burgmüller and Czerny, or songs from Alfred’s Basic Piano Library (USA, Canada, Australia and UK only). It is possible to listen to each etude or song at various tempos, practicing the left and right hand parts separately.

Alfred's Basic Piano Library lesson book is sold separately. Please check with local dealers or contact Alfred's customer service by telephoning 818-892-2452 (USA & Canada), 0-95240033 (Australia), +44 (0) 279828960 (UK). Or alternatively, by e-mailing customerservice@alfred.com.

Lesson availability differs depending on geographical location:

<table>
<thead>
<tr>
<th>Book No.</th>
<th>Lesson Book Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>US, Canada, UK, Australia</td>
<td>1 Alfred’s Basic Piano Library Lesson Book Level 1A</td>
</tr>
<tr>
<td>Rest of the World</td>
<td>1 Burgmüller: 25 Progressive Pieces, Opus 100</td>
</tr>
<tr>
<td>Rest of the World</td>
<td>2 Czerny: 30 Czerny Etudes de Mécanisme, Opus 849</td>
</tr>
</tbody>
</table>

Please refer to Appendix 4: ‘LESSON SONG LIST’ on pages 39-40 for a complete listing of available Lesson Function songs.

◊ SELECTING A LESSON SONG FROM THE FIRST SONG BOOK

■ Step 1
Press the LESSON button.

The LED indicator for the LESSON button will turn on, indicating that lesson mode is enabled, and the Concert Grand sound will be selected automatically.

■ Step 2
Press and hold the LESSON button, then press the white key assigned to the desired lesson song.

◊ SELECTING A LESSON SONG FROM THE SECOND SONG BOOK

◆ Example: To select lesson song No. 3
Press and hold the LESSON button, then press one of the black keys, and finally press the white key assigned to the desired lesson song.
◊ LISTENING TO A LESSON SONG

Before practicing a lesson song, it is possible to listen to an example performance.

☐ Step 1
Press the PLAY/STOP button.

The LED indicator for the PLAY/STOP button will turn on, and the currently selected lesson song will start to play.

☐ Step 2
Press the PLAY/STOP button once again to stop the performance.

The LED indicator for the PLAY/STOP button will turn off.

■ The metronome tempo will automatically be set to that of the currently selected lesson song.

◊ EXITING THE LESSON FUNCTION

Press the LESSON button.

The LED indicator for the LESSON button will turn off, and the CL36 digital piano will return to normal operation mode.

◊ PRACTICING LEFT AND RIGHT HAND PARTS

When entering the lesson mode, the LED indicators for the METRONOME and SOUND SELECT button will turn on, indicating that both the left hand and right hand parts of the selected lesson will be played.

◆ LISTENING TO THE LEFT HAND PART OF A LESSON SONG

☐ Step 1
Press the SOUND SELECT button.

The LED indicator for the METRONOME button will remain on, but the LED indicator for the SOUND SELECT button will turn off.

☐ Step 2
Press the PLAY/STOP button to play the selected lesson.

The left hand part of the selected lesson will start to play, allowing the right hand part to be practiced separately.

■ Pressing the SOUND SELECT button repeatedly will alternate between selecting the left hand, the right hand, and both hands for playback.
**LISTENING TO THE RIGHT HAND PART OF A LESSON SONG**

- **Step 1**
  Press the SOUND SELECT button twice.

  The LED indicator for the SOUND SELECT button will turn on, and the LED indicator for the METRONOME button will turn off.

- **Step 2**
  Press the PLAY/STOP button to play the selected lesson.

  The right hand part of the selected lesson will start to play, allowing the left hand part to be practiced separately.

**LISTENING TO BOTH HANDS OF A LESSON SONG (RETURNING TO NORMAL PLAYBACK MODE)**

Press the SOUND SELECT button three times.

The LED indicators for both the SOUND SELECT and METRONOME buttons will turn on.

Both the left hand and right hand parts of the lesson song will be selected.

- The CL36 digital piano will return to normal playback mode if the LESSON button is pressed twice (exiting, and re-entering LESSON mode).

- It is also possible to select either the left or right hand parts for playback directly. Press and hold the LESSON button, then press either the METRONOME or SOUND SELECT button to select the left or right hand part respectively.

**ADJUSTING THE TEMPO OF A LESSON SONG**

- **Method 1**
  Press and hold the METRONOME button, then enter the desired tempo as a number using the number keys.
  Release the METRONOME button.

- **Method 2**
  Press and hold the METRONOME button, then press the ‘- (off)’ or ‘+ (on)’ keys repeatedly to gradually decrease or increase the current tempo by 2 BPM.
  Release the METRONOME button.

  Press and hold the METRONOME button, then press the ‘- (off)’ and ‘+ (on)’ keys simultaneously to reset the tempo of the lesson song.

Selecting the same lesson song again will also reset the tempo of the lesson song.
4. RECORDER

The RECORDER function records performances in a similar way to that of a tape recorder. However, the CL36 digital piano records songs as digital data, instead of audio data - storing the music inside the instrument, and providing a useful tool for both practicing and playing the piano.

The CL36 digital piano allows up to three different recorder songs to be stored in memory.

1) RECORDING A SONG

☐ Step 1
Press the REC button.

The LED indicator for the REC button will start to flash, indicating that the piano is in recording standby mode.

☐ Step 2
Start to play the piano.

The recorder will automatically start recording with the first note played.
During this time, the LED indicators for the REC and PLAY/STOP buttons will be turned on.

■ The recording can also be started by pressing the PLAY/STOP button instead of pressing a key, allowing a blank bar or 'up beat' to be inserted at the beginning of a song.

☐ Step 3
Press the PLAY/STOP button to stop recording.

The CL36 digital piano will stop recording and all LED indicators will turn off while the song is saved to memory.

■ Do not turn the power off while the song is saving to memory.
■ The total recording capacity of the CL36 digital piano's memory is approximately 15,000 notes (3 songs total), with pedal presses also counted as one note. When the maximum capacity is reached, recording will stop and all music recorded up until that point will be saved to memory automatically.
■ To record the piece again, simply repeat the above procedure. The new recording will completely erase the previous recording.

◆ SELECTING RECORDER SONG

To select a different recorder song:
In Step 1 above, press and hold the REC button, then press one of the lowest 3 keys to select the desired song.

■ When power is turned on, SONG 1 will be selected automatically.
2) PLAYING BACK A SONG

Press the PLAY/STOP button to start playing the recorded song.

Press the PLAY/STOP button again to stop playback.

To playback a different song, press and hold the PLAY/STOP button, then press one of the lowest 3 keys to select the desired song.

3) ERASING ALL SONGS

The CL36 digital piano must be turned off in order to erase the recorded song.

☐ Step 1
Turn the power off.

☐ Step 2
Press and hold the PLAY/STOP and REC buttons simultaneously, then press the POWER button to turn the power on.

All 3 recorded songs will be erased.
The Function Mode settings allow various advanced parameters of the CL36 digital piano to be adjusted.

1) BASIC OPERATION

☐ Step 1
Press and hold the METRONOME and SOUND SELECT buttons simultaneously, then press one of the 10 keys assigned to the desired function.

The LED indicators for the METRONOME and SOUND SELECT buttons will start to flash while the settings are being adjusted.

- If the LED indicators for either the CONCERT MAGIC or LESSON buttons are turned on, the Function Mode cannot be used.

☐ Step 2
While still holding down the METRONOME and SOUND SELECT buttons, press the ‘- (off)’ or ‘+ (on)’ keys to change the value for the selected function.

- While holding down the METRONOME and SOUND SELECT buttons, it is possible to select other functions, changing each value successively.

☐ Step 3
Release both the METRONOME and SOUND SELECT buttons to exit Function Mode.

- When the power is turned off, Function Mode settings will be reset to the factory default values, shown below.

<table>

</tbody>
</table>
2) TOUCH TYPE

When playing a piano, the volume of the sound produced increases in direct relation to how hard each key is struck. The TOUCH function allows different touch sensitivities for the keyboard to be selected, other than the standard touch of an acoustic piano. The sensitivity can be changed to one of four different settings: Light, Normal, Heavy or Constant.

☐ Step 1
Press and hold the METRONOME and SOUND SELECT buttons simultaneously, then press the key assigned to the TOUCH function.

☐ Step 2
While still holding down the METRONOME and SOUND SELECT buttons, press one of the following keys:

◆ Key1: LIGHT
For those still developing finger strength, such as a child, a louder sound is produced even when the piano is played with a soft touch.

◆ Key2: NORMAL
The standard setting, reproducing the touch sensitivity of an acoustic piano. This touch type is selected automatically when the CL36 digital piano is turned on.

◆ Key3: HEAVY
Perfect for those with strong fingers or for practicing with a hard touch.

◆ Key4: CONSTANT
This setting is suitable for sounds that have a fixed dynamic range, such as Organ and Harpsichord. A constant volume is produced regardless of how hard the keys are struck.

■ The touch type is automatically set to NORMAL when the CL36 digital piano is turned on.

3) TRANSPOSE

The TRANSPOSE function allows the piano’s keys to be raised or lowered in half steps. This is particularly useful when accompanying instruments with different tones, or when a song learned in one key must be played in another key. The transpose feature allows the song to be played in the original key, but heard in another key.

☐ Step 1
Press and hold the METRONOME and SOUND SELECT buttons simultaneously, then press the key assigned to the TRANSPOSE function.

☐ Step 2
While still holding down the METRONOME and SOUND SELECT buttons, press a key on the keyboard to select the desired transposed key.

■ The CL36 digital piano can be transposed up to 5 half steps higher (F) or 6 half steps lower (F#).
■ The transpose value is set to 0 (C) when the CL36 digital piano is turned on.
■ The transpose function can be turned off/on, retaining the set value, by using the ‘- (off)’ or ‘+ (on)’ keys.
4) TUNING

The TUNING function allows the piano’s pitch to be finely adjusted, and may prove useful when playing with other instruments. The factory default value is set to the modern standard A = 440.0 Hz and can be adjusted in 0.5 Hz increments.

☐ Step 1
Press and hold the METRONOME and SOUND SELECT buttons simultaneously then press the key assigned to the TUNING function. A tuning tone will be played.

☐ Step 2
While still holding down the METRONOME and SOUND SELECT buttons, press the ‘- (off)’ or ‘+ (on)’ keys to lower or raise the tuning pitch by 0.5 Hz, or enter the desired tuning pitch as a three digit number using the number keys.

- For example, to set the tuning pitch to A = 441.5 Hz, first press the keys ‘4’, ‘4’, and ‘1’, then press the ‘+ (on)’ key. Alternatively, first press the keys ‘4’, ‘4’, and ‘2’, then press the ‘- (off)’ key.

5) REVERB

The REVERB function adds reverberation to the sound, simulating the acoustic environment of a recital room, stage, or concert hall. There are three types of reverb available: Room, Stage and Hall. The most suitable reverb setting is applied to each sound type automatically.

☐ Step 1
Press and hold the METRONOME and SOUND SELECT buttons simultaneously then press the key assigned to the REVERB function.

☐ Step 2
While still holding down the METRONOME and SOUND SELECT buttons, press one of the following keys to select the Reverb type:

- Key 1: ROOM
- Key 2: STAGE
- Key 3: HALL

- The REVERB function is automatically activated when the CL36 digital piano is turned on.

☐ Step 3
To turn on/off the REVERB function, press and hold the METRONOME and SOUND SELECT buttons simultaneously, press the key assigned to the REVERB function, and then press the ‘+ (on)’ or ‘- (off)’ key.
6) DAMPER EFFECT

When the damper pedal is depressed on an acoustic piano, all dampers are lifted up, allowing the strings to vibrate freely. When a note or chord is played on the piano with the damper pedal depressed, not only will the strings of the notes played vibrate, but also the strings of other notes, vibrating in sympathetic resonance. The Damper Effect function of the CL36 digital piano attempts to simulate this phenomenon.

□ Step 1
Press and hold the METRONOME and SOUND SELECT buttons simultaneously, then press the key assigned to the DAMPER EFFECT function.

□ Step 2
While still holding down the METRONOME and SOUND SELECT buttons, press one of the following keys to select the Damper Effect type:

Key1: Soft
Key2: Normal
Key3: Strong

The Damper Effect setting is automatically set to Normal when the CL36 digital piano is turned on.

7) CONCERT MAGIC MODE

The CL36 digital piano offers two ways to enjoy Concert Magic.

◆ Mode 1
Mode 1 categorises each of the 40 Concert Magic songs into one of three different arrangement types, depending on the skill level required to perform them. They are Easy Beat, Melody Play an Skillful. Please refer to ‘CONCERT MAGIC SONG TYPES’ on page 18 for further information.

◆ Mode 2
Mode 2 allows Concert Magic songs to be played by simply tapping any key with a constant steady beat, regardless of the song arrangement type.

□ Step 1
Press and hold the METRONOME and SOUND SELECT buttons simultaneously, then press the key assigned to the CONCERT MAGIC MODE function.

□ Step 2
While still holding down the METRONOME and SOUND SELECT buttons, press the ‘+ (on)’ key to set Concert Magic Mode to Mode 2, or the ‘- (off)’ key to set Concert Magic Mode to Mode 1.

The Concert Magic Mode is set to Mode 1 when the CL36 digital piano is turned on.
8) MIDI CHANNEL SELECT

◇ ABOUT MIDI

The term MIDI is an acronym for Musical Instrument Digital Interface, an international standard for connecting synthesizers, sequencers (MIDI recorders) and other electronic instruments so that they can exchange performance data. The CL36 digital piano is equipped with two MIDI jacks for exchanging data: MIDI IN and MIDI OUT. Each uses a special cable with a DIN connector.

- MIDI IN: For receiving note, program change and other data.
- MIDI OUT: For sending note, program change and other data.

* "MIDI" is a registered trademark of the Association of Manufacturers of Electronic Instruments (AMEI).

■ Connection to an external sequencer

When connected to an external sequencer, songs played on the CL36 digital piano can be recorded using a MIDI recorder, with preset sounds (such as piano, harpsichord and vibraphone, etc.) controlled by the CL36 digital piano's MULTITIMBRAL MODE function to create a multi-layered MIDI recording.

◇ CL36 MIDI FUNCTIONS

| Transmit / receive keyboard note information | Receive volume data |
| Transmit / receive channel setting          | Multi-timbral setting |
| Transmit / receive Program change (sound type) number | Transmit / receive exclusive data |
| Transmit / receive pedal data               |

In order to exchange MIDI information with another MIDI instrument, the two connected instruments must be set to the same channel.

■ Step 1

Press and hold the METRONOME and SOUND SELECT buttons simultaneously, then press the key assigned to the MIDI CH function.

■ Step 2

While still holding down the METRONOME and SOUND SELECT buttons, select the desired MIDI channel by entering a two digit number using the number keys.

For example, to set the MIDI channel to CH 1, press the ‘0’ key and then the ‘1’ key.
To set the MIDI channel to CH 16, press the ‘1’ key and then the ‘6’ key.

- A MIDI channel can be set within the range of 1 to 16.
- The MIDI channel is automatically set to CH 1 when the CL36 digital piano is turned on.
9) MIDI LOCAL CONTROL ON/OFF

This function is used to control whether or not the sound from the CL36 digital piano will be heard when playing the keyboard. When MIDI LOCAL CONTROL is set to ‘on’, sound will be heard when playing the CL36 digital piano's keyboard. When MIDI LOCAL CONTROL is set to ‘off’, sound will not be heard when playing the CL36 digital piano's keyboard, however the keyboard data will still be transmitted to an external MIDI device. When MIDI information is received, the sound will be played through the CL36 digital piano.

☐ Step 1
Press and hold the METRONOME and SOUND SELECT buttons simultaneously, then press the key assigned to the LOCAL function.

☐ Step 2
While still holding down the METRONOME and SOUND SELECT buttons, press the key ‘- (off)’ to set MIDI LOCAL CONTROL to ‘off’, or the ‘+ (on)’ key to set MIDI LOCAL CONTROL to ‘on’.

 ■ The MIDI Local Control setting is automatically set to ‘on’ when the CL36 digital piano is turned on.
10) MULTI-TIMBRAL MODE ON/OFF

The procedure described in the MIDI CHANNEL SELECT section is used to transmit or receive data on only one of the 16 MIDI channels (CH 1 - CH 16). However, by enabling MULTI-TIMBRAL MODE, MIDI data can be received on more than one MIDI channel, simultaneously playing a different sound on each channel. With this feature enabled, an external sequencer can be used to enjoy ensemble performances, playing multiple sound types on a single CL36 digital piano.

The term ‘Multi-Timbral’ is derived from the ability to play multiple timbres simultaneously.

- Please refer to the chart below for information regarding received program numbers and the corresponding sound types.
- Data received through CH 10 will not be performed when MULTI-TIMBRAL MODE is enabled.

□ Step 1
Press and hold the METRONOME and SOUND SELECT buttons simultaneously, then press the key assigned to the MULTI function.

□ Step 2
While still holding down the METRONOME and SOUND SELECT buttons, press the key ‘- (off)’ to set MULTI-TIMBRAL MODE to ‘off’, or the ‘+ (on)’ key to set MULTI-TIMBRAL MODE to ‘on’.

- The MULTI-TIMBRAL MODE setting is automatically set to ‘off’ when the CL36 digital piano is turned on.

11) TRANSMIT MIDI PROGRAM CHANGE

This function determines whether or not the CL36 digital piano will transmit program change information when sound types are changes. It is also possible to transmit a program change number (ranging from 1 to 128) in order to change the sound type of an external MIDI sound source.

□ Step 1

Press and hold the METRONOME and SOUND SELECT buttons simultaneously, then press the key assigned to the PROGRAM function.

□ Step 2

While still holding down the METRONOME and SOUND SELECT buttons, press the ‘-(off)’ key to disable transmitting program change data when selecting sounds, or the ‘+(on)’ key to enable transmitting program change data when selecting sounds.

The TRANSMIT PROGRAM CHANGE setting is set to ‘off’ when the CL36 digital piano is turned on.

□ Step 3

To transmit the desired program change number directly, first press and hold the METRONOME and SOUND SELECT buttons simultaneously, press the key assigned to the PROGRAM function, then enter the three digit number using the number keys.

Three digit program change numbers ranging from 001 to 128 can be transmitted. For example, press ‘0’, ‘0’, and ‘1’ to transmit program change number 1.

The program change number will be transmitted automatically when the key for the third digit number is pressed.
6. POWER SETTING

1) AUTO POWER OFF

- **Step 1**
  Press and hold the METRONOME and SOUND SELECT buttons simultaneously, then press one of the 4 keys assigned to the AUTO POWER OFF setting.

  The LED indicators for the METRONOME and SOUND SELECT buttons will start to flash while the settings are being adjusted.

  - If the LED indicators for either the CONCERT MAGIC or LESSON buttons are turned on, the Function Mode cannot be used.

- **Step 2**
  Release both the METRONOME and SOUND SELECT buttons to exit the AUTO POWER OFF setting.

  - Alternatively, press and hold the POWER button, then press one of the 4 keys assigned to the AUTO POWER OFF setting.
7. APPENDICES

1) CONNECTING TO OTHER DEVICES

1. MIDI JACKS
   Used to connect the CL36 digital piano with external MIDI devices.

2. PEDAL JACK
   Used to connect the pedal board to the CL36 digital piano.
2) ASSEMBLY INSTRUCTIONS

**Caution**
- Ensure that this section is read thoroughly before attempting to assemble the CL36 digital piano, and that two or more people work on unit assembly.
- When moving the CL36 digital piano, ensure that hands are not caught in the unit, and that the piano is not dropped on an individual’s feet.

Before attempting to assemble the CL36 digital piano, ensure that all parts are included. A Phillips-head screwdriver will also be required to assemble the instrument (not included). To prevent scratches during assembly, it is recommended to cover hard floor surfaces with a towel or blanket.

**PARTS PROVIDED**

- Main Unit (A) ...................................... 1pc.
- Pedal Board (C) .................................... 1pc.
- Music Rack (E) ...................................... 1pc.
- Power Cord (G) ...................................... 1pc.
- Adjuster (j) .......................................... 1pc.
- Screw (m) (4x20) ................................... 2pcs.
- Cap (o) ............................................. 8pcs.
- Screw (q) (6x60) ................................... 4pcs.
- Stand Back Panel (B) ............................ 1pc.
- Side Panel (L/R) (D) ............................... 2pcs.
- AC Adaptor (F) ...................................... 1pc.
- Head Phone Hook Set (h) ....................... 1pc.
- Screw (k) (4x16) ................................... 4pcs.
- Screw (n) (6x25) ................................... 2pcs.
- Screw (p) (6x30) ................................... 4pcs.
- Clamp (r) .......................................... 6pcs.
1. Insert the Adjuster (j) approximately 1 cm into the bottom of the Pedal Board (C). Unfasten and extend the pedal connection cable attached to the bottom of the Pedal Board.

2. Place the Main Unit (A) on the floor with its back side facing down.

3. Place the left and right Side Panels (D) beside the Main Unit (A), as shown in the illustration.

4. Loosely attach the left and right Side Panels (D) to the Main Unit (A) using four 6x30 screws (p), two 6x25 screws (n) and two 4x20 screws (m), as shown in the illustration. Tighten the screws loosely, leaving an allowance of approximately 1-2 mm. Ensure that the correct side panel is used for the left and right side.

5. Loosely attach the Stand Back Panel (B) to the partially assembled instrument using four 6x60 screws (q).

6. Attach the Pedal Board (C) to the left and right Side Panels using four 4x16 screws (k).

7. Remove, reposition, then reattach the glides located on the underside of the left and right Side Panels (D) so that they protrude.

8. Allow the assembled instrument to stand upright (vertically) on the floor. Securely tighten all loosely fastened screws, ensuring that the Main Unit (A), Pedal Board (C) and Side Panels (D) make close contact, and that there are no large gaps between the assembled parts.

9. Cover the screw holes on the left and right Side Panels using 8 Caps (o).

Caution • Ensure that small children do not attempt to remove and swallow the Caps.
10. Insert the Music Rack (E) into the holes on the top of the Main Unit (A).

11. Connect the Pedal Board pedal cable to the PEDAL terminal on the back side of the Main Body, ensuring the notched plug faces upward. Fix the cable in place using the Clamps (r) and binders, as shown in the illustration.

12. Connect the AC Adaptor (F) to the DC IN terminal on the back side of the Main Body, then connect the Power Cord (G) to the AC Adaptor. Fix the cable in place using the Clamps (r) and binders, as shown in the illustration.

13. Turn the Adjuster (j) installed on the bottom of the Pedal Board (C) anti-clockwise, extending the bolt until it makes contact with the floor and supports the pedal firmly.

**Caution**
- When moving the instrument, ensure that the unit is lifted clearly from the floor (i.e. not dragged/pushed) in order to avoid damaging the pedal board.

14. Attach the headphone hook to the underside of the Main Unit using the two small screws supplied.
