Classic Series
CS4
Owner’s Manual
Thank you for purchasing this Kawai Concert Artist digital piano.

This owner’s manual contains important information regarding the usage and operation of the CS4 digital piano.

Please read all sections carefully, keeping this manual handy for future reference.
About this Owner’s Manual

Before attempting to play this instrument, please read the Preparation Before Use section from page 10 of this owner’s manual. This section explains the name and function of each part, how to connect the power cable, and how to turn on the power.

The Playing the Piano section (page 12) provides an overview of the instrument’s most commonly used functions, allowing the CS4 digital piano to be enjoyed almost immediately after being connected, while the Internal Songs section (page 17) includes information regarding the built-in demonstration songs, Piano Music pieces, and Lesson function.

The Recorder section (page 21) provides instructions on how to record and play back pieces stored in the instrument’s internal memory, and the Settings section (page 23) details the settings that can be used to adjust a number of sound and keyboard characteristics, as well as basic MIDI functionality.

Finally, the Appendix section (page 38) includes listings for all demo, Piano Music, and Lesson function songs, a troubleshooting guide, assembly instructions, MIDI reference information, and full specification details.

CS4 Feature Highlights

‘Responsive Hammer II’ weighted-key action, with Ivory Touch key surfaces and Let-off simulation

The new Responsive Hammer II (RHII) action recreates the distinctive touch of an acoustic grand piano, with its realistic movement and accurate 3-sensor technology providing a smooth, natural, and highly responsive piano playing experience. The weight of the keyboard is appropriately graded to mirror the heavier bass hammers and lighter treble hammers of an acoustic piano, while structural reinforcements within the action assembly ensure greater stability during fortissimo and staccato passages.

The CS4 digital piano also features Kawai’s Ivory Touch key surfaces that gently absorb finger moisture to assist the player’s performance, while, let-off simulation recreates the subtle ‘ notch’ sensation felt when softly playing the keys of a grand piano, satisfying the expectations of the most discerning pianists.

Progressive Harmonic Imaging (PHI) with 88-key piano sampling

The CS4 digital piano captures the beautiful sound of Kawai’s highly acclaimed hand-built concert grand piano, with all 88 keys of this exceptional instrument meticulously recorded, analysed and faithfully reproduced using proprietary Progressive Harmonic Imaging™ technology. This unique process accurately recreates the broad dynamic range of the original grand piano, affording pianists an extraordinary level of expressiveness ranging from the softest pianissimo to the strongest, boldest fortissimo.

Additional modelling techniques and effects, such as reverb and damper resonance are also applied, delivering a rich selection of vibrant piano tones with breathtaking realism and authenticity.

Internal Song recorder, Built-in Lesson Function

The CS4 digital piano features a three song recorder, allowing performances to be recorded to internal memory and played back at the touch of a button. In addition, the convenient lesson feature allows aspiring pianists to learn the piano using a built-in collection of etudes from Czerny and Burgmüller, or songs from the popular Alfred course books. The left and right hand parts for each piece can be practiced separately, while adjusting the tempo allows more difficult passages to be perfected.
Important Safety Instructions

SAVE THESE INSTRUCTIONS

INSTRUCTIONS PERTAINING TO A RISK OF FIRE, ELECTRIC SHOCK, OR INJURY TO PERSONS

CAUTION
RISK OF ELECTRIC SHOCK
DO NOT OPEN

WARNING
TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS PRODUCT TO RAIN OR MOISTURE.

AVIS : RISQUE DE CHOC ELECTRIQUE - NE PAS OUVRIR.

TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK).
NO USER-SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

The lighting flash with arrowhead symbol, within an equilateral triangle, is intended to alert the user to the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the product.

Examples of Picture Symbols

- denotes that care should be taken.
The example instructs the user to take care not to allow fingers to be trapped.

- denotes a prohibited operation.
The example instructs that disassembly of the product is prohibited.

- denotes an operation that should be carried out.
The example instructs the user to remove the power cord plug from the AC outlet.

Read all the instructions before using the product.

1) Read these instructions.
2) Keep these instructions.
3) Heed all warnings.
4) Follow all instructions.
5) Do not use this apparatus near water.
6) Clean only with dry cloth.
7) Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
8) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9) Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prongs are provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10) Protect the power cord from being walked on or pinched particularly at plugs, convenience receptacles, and the point where they exit from the apparatus.
11) Only use attachments/accessories specified by the manufacturer.
12) Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over.
13) Unplug this apparatus during lightning storms or when unused for long periods of time.
14) Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or object have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not operate normally, or has been dropped.
WARNING - When using electric products, basic precautions should always be followed, including the following.

**WARNING**

Indicates a potential hazard that could result in death or serious injury if the product is handled incorrectly.

The product should be connected to an AC outlet of the specified voltage.

- If you are going to use an AC power cord, make sure that its has the correct plug shape and conforms to the specified power voltage.
- Failure to do so may result in fire.

Do not insert or disconnect the power cord plug with wet hands.

Doing so may cause electric shock.

Take care not to allow any foreign matter to enter the product.

Entry of water, needles or hair pins may result in breakdown or short-circuit. The product shall not be exposed to dripping or splashing. No objects filled with liquids, such as vases, shall be placed on the product.

The chair must be used properly (it must be used only when playing the product).

- Do not play with it or stand on it.
- Only one person is allowed to sit on it.
- Do not sit on it when opening the lid.
- Re-tighten the bolts occasionally.

Doing so may cause the chair to fall over or your fingers to be trapped, resulting in injury.

When using the headphones, do not listen for long periods of time at high volume levels.

Doing so may result in hearing problems.

Do not lean against the keyboard.

Doing so may cause the product to fall over, resulting in injury.

Do not disassemble, repair or modify the product.

Doing so may result in product breakdown, electric shock or short-circuit.

When disconnecting the AC power cord’s plug, always hold the plug and pull it to remove it.

Pulling the AC power cord itself may damage the cord, causing a fire, electric shock or short-circuit.

The product is not completely disconnected from the power supply even when the power switch is turned off. If the product will not be used for a long time, unplug the AC power cord from the AC outlet.

- Failure to do so may cause fire in case of lightning.
- Failure to do so may over-heat the product, resulting in fire.

This product may be equipped with a polarized line plug (one blade wider than the other). This is a safety feature. If you are unable to insert the plug into the outlet, contact an electrician to replace your obsolete outlet.

Do not defeat the safety purpose of the plug.

It is a good practice to have the instrument near the AC outlet and the power cord plug in a position so that it can readily be disconnected in an emergency because electricity is always charging while the plug is in the AC outlet even in a power switch off condition.

<tr>
<td>Do not stand on the product or exert excessive force.</td>
</tr>
<tr>
<td>● Doing so may cause the product to become deformed or fall over, resulting in breakdown or injury.</td>
</tr>
<tr>
<td>Do not place naked flame, such as lighted candles on the product.</td>
</tr>
<tr>
<td>Doing so may cause the illumination to fall over, resulting in fire.</td>
</tr>
<tr>
<td>Ensure that the ventilation is not impeded by covering the ventilation openings with items, such as newspaper, table-cloths, curtains, etc.</td>
</tr>
<tr>
<td>Failure to do so may over-heat the product, resulting in fire.</td>
</tr>
<tr>
<td>The product should be located so that its location or position does not interfere with its proper ventilation. Ensure a minimum distance of 5cm around the product for sufficient ventilation.</td>
</tr>
</tbody>
</table>
The product should be serviced by qualified service personnel when:

- The power supply cord or the plug has been damaged.
- Objects have fallen, or liquid has been spilled into the product.
- The product has been exposed to rain.
- The product does not appear to operate normally or exhibits a marked change in performance.
- The product has been dropped, or the enclosure damaged.

Notes on Repair
Should an abnormality occur in the product, immediately turn the power OFF, disconnect the power cord plug, and then contact the shop from which the product was purchased.

CAUTION:
To prevent electric shock, match wide blade of plug to wide slot, fully insert.

ATTENTION:
Pour éviter les chocs électriques, introduire la lame plus large de la fiche dans la borne correspondante de la prise et pousser jusqu’au fond.

An information on Disposal for users
If your product is marked with this recycling symbol it means that, at the end of its life, you must dispose of it separately by taking it to an appropriate collection point.
You should not mix it with general household waste. Disposing of this product correctly will prevent potential negative effects on the environment and human health which could otherwise arise due to inappropriate waste handling.
For further details, please contact your local authority.
(European Union only)

Instruction for AC power cord (U.K.)
IMPORTANT
THE WIRES IN THIS MAINS LEAD ARE COLOURED IN ACCORDANCE WITH THE FOLLOWING CODE.
BLUE: NEUTRAL
BROWN: LIVE

As the colours of the wires in the mains lead of this apparatus may not correspond with the coloured markings identifying the terminals in your plug, proceed as follows:
The wire which is coloured BLUE must be connected to the terminal which is marked with the letter N or coloured BLACK.
The wire which is coloured BROWN must be connected to the terminal which is marked with the letter L or coloured RED.
Do not plug either terminal of the power cord to the ground of AC outlet on the wall.

Canadian Radio Interference Regulations
This instrument complies with the limits for a class B digital apparatus, pursuant to the Radio Interference Regulations, C.R.C., c. 1374.

FCC Information (U.S.A)
CAUTION: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The nameplate label is located on the underside of the instrument, as indicated below.

Part Names and Functions

1. **POWER switch**
   This switch is used to turn the CS4 digital piano on/off. Be sure to turn off the instrument after playing.

2. **MASTER VOLUME slider**
   This slider controls the master volume level of the CS4 digital piano’s built-in speakers or headphones, if connected.

3. **DEMO button**
   This button is used to start/stop playback of the CS4 digital piano’s built-in Demonstration songs and Piano Music pieces.

4. **LESSON button**
   This button is used to select the CS4 digital piano’s built-in Lesson songs.

5. **PLAY / STOP button**
   This button is used to start/stop the playback of Recorder songs stored in memory and the CS4 digital piano’s built-in Lessons songs.

6. **REC button**
   This button is used to record performances to the CS4 digital piano’s internal memory.

7. **METRONOME button**
   This button is used to turn the metronome function on/off, and also to adjust its tempo, time signature, and volume settings.

8. **SOUND SELECT button**
   This button is used to select the sound(s) that will be heard when the keys are pressed.

9. **MIDI IN / OUT jacks**
   These jacks are used to connect the CS4 digital piano to external MIDI devices, such as other musical instruments or a computer, in order to send and receive MIDI data.

10. **PEDAL connector**
    This connector is used to connect the CS4 digital piano’s pedal board to the instrument.

11. **PHONES jacks**
    These jacks are used to connect stereo headphones to the CS4 digital piano. Two pairs of headphones can be connected and used simultaneously.

---

**Operation Guide**

The separate Operation Guide provides a convenient overview of the CS4 digital piano’s various button and keyboard controls. This sheet is also reprinted in the Appendix section of this owner’s manual.
Setting Up the Piano

1. Connecting the power adaptor
   Connect the AC power adaptor to the ‘DC IN’ inlet located on the underside of the instrument, as indicated below.

2. Connecting the power adaptor to an outlet
   Connect the AC power adaptor to an AC outlet.

3. Turning on the power
   Press the POWER switch, located on the right hand side of the instrument’s front panel.

   The LED indicator for the SOUND SELECT button will turn on and the Concert Grand sound will be selected automatically.

4. Adjusting the volume
   Move the MASTER VOLUME slider up and down to increase and decrease the volume level of the instrument’s speakers, or headphones if connected.

   Adjust the volume to a comfortable listening level - the middle is often a good starting point.

- Using headphones

   Use the jacks located beneath the keyboard on the left hand side, to connect stereo headphones to the CS4 digital piano.

   When a pair of headphones is connected, sound will not be produced by the speakers. Up to two pairs of headphones can be connected and used simultaneously.

- Adjusting the pedal support bolt

   A pedal support bolt is attached at the base of the pedal board to aid stability when the pedals are pushed. Turn the bolt anti-clockwise until it makes contact with the floor and supports the pedals firmly.

   When moving the instrument, always adjust or remove the pedal support bolt, then readjust when the instrument is in its new position.
The CS4 digital piano features 15 different instrument sounds, which can be selected in one of two ways. By default the ‘Concert Grand’ sound will be selected automatically when the instrument is turned on.

## Instrument Sounds

</tbody>
</table>

### Selecting a sound: Method 1

Press the SOUND SELECT button repeatedly to cycle through the 15 available instrument sounds.

*When the Concert Grand sound is selected the LED indicator for the SOUND SELECT button will turn on.*

*When a sound other than Concert Grand is selected the LED indicator for the SOUND SELECT button will start to flash.*

### Selecting a sound: Method 2

Press and hold the SOUND SELECT button, then press one of the lowest 15 white keys to selected the desired instrument sound.
Using the Pedals

As with a grand piano, the CS4 digital piano features three pedals: sustain, sostenuto, and soft.

- **Sustain pedal (right pedal)**
  Depressing this pedal sustains the sound after one’s hands have been lifted from the keyboard - greatly enriching the piano sound, while also assisting smooth ‘legato’ passages.
  The sustain pedal is capable of responding to half pedaling.

- **Sostenuto pedal (centre pedal)**
  Depressing this pedal after playing the keyboard and before releasing the keys, sustains the sound of only those notes that have been played. Any keys that are subsequently played after the sostenuto pedal is depressed will not be sustained.

- **Soft pedal (left pedal)**
  Depressing this pedal softens the sound, reducing its volume. When the rotary speaker effect is selected, the soft pedal is also used to alternate the speed of the rotary simulation between ‘Slow’ and ‘Fast’ effect modes.

**Pedal support bolt**

If the pedal support bolt does not make contact with the floor, the pedal board may become damaged. Ensure that this bolt is fully extended and supports the pedals firmly.

![Warning]

> When moving the instrument, always adjust or remove the pedal support bolt, then readjust when the instrument is in its new position.

**Caring for the pedals**

If the surface of the pedals becomes dirty, clean the pedals using a dry dish-washing sponge. Do not attempt to clean the pedals using rust-removing solvents, abrasives or files.

**Grand Feel pedal system**

The CS4 digital piano features the Grand Feel pedal system, which replicates the sustain, soft, and sostenuto pedal weighting of Kawai’s EX Concert Grand piano.
The Dual Mode function allows two sounds to be layered together, creating a more complex sound. For example, a piano sound layered with strings, or an electric piano combined with a harpsichord, etc.

**Enabling Dual Mode**

Press and hold the SOUND SELECT button, then press two of the lowest eight keys simultaneously. The sounds corresponding to the two keys will be layered together.

**Adjusting the volume balance**

Press and hold the SOUND SELECT button, then press the F♯ or G♯ keys repeatedly to decrease or increase the volume balance between the two sounds.

**Exiting Dual Mode**

Press the SOUND SELECT button. The Concert Grand sound will be selected automatically and the instrument will return to normal operation.
Four Hands Mode

The Four Hands Mode function divides the keyboard into two sections, with the sustain (right) and soft (left) pedal acting as independent sustain pedals for each section. The octave/pitch of each section is also adjusted, allowing two people to perform piano duets within the same key range using a single instrument.

■ Enabling Four Hands Mode

Press the DEMO and LESSON buttons simultaneously. The LED indicators for the DEMO and LESSON buttons will start to flash, indicating that Four Hands Mode is enabled.

* The selected keyboard sound can still be changed when Four Hands Mode is enabled.

■ Changing the Four Hands Mode split point

The keyboard length for each section can be freely adjusted.

Press and hold the DEMO and LESSON buttons simultaneously, then press a key on the keyboard so set the new Four Hands Mode split point.

The pressed key will become the new Four Hands Mode split point.

* The default split point is set between keys B2 and C3.

■ Exiting Four Hands Mode

Press either the DEMO or LESSON button.

The instrument will return to normal operation.

* With Four Hands Mode activated, selecting a different sound will affect both the left and right sections.
* It is not possible to use the Recorder function with Four Hands Mode activated.
* The sostenuto pedal will affect the right section sound only.
The Metronome function provides a steady beat to aid practicing the piano at a consistent tempo. The time signature, volume, and tempo of the metronome can be freely adjusted.

* BPM = Beats Per Minute

### Turning the metronome on/off

Press the METRONOME button.

The metronome will start to count and the LED indicator for the METRONOME button will turn on, indicating that the metronome is in use.

* By default the metronome will count with a 1/4 beat at 120 bpm.

Press the METRONOME button again to stop the metronome.

### Adjusting the metronome tempo

**Method 1:**

While pressing the METRONOME button, press keys 1, 5, and 0 to set the tempo to 150 bpm, or keys 8 and 5 to set the tempo to 85 bpm.

**Method 2:**

While pressing the METRONOME button, press the -/+ keys repeatedly to gradually decrease or increase the tempo in 2 bpm increments.

### Changing the metronome time signature

Press and hold the METRONOME button, then press one of the 7 lowest black keys, as shown in the illustration below.

* The metronome can be set to one of seven time signatures: 1/4, 2/4, 3/4, 4/4, 5/4, 3/8, and 6/8.

### Adjusting the metronome volume

Press and hold the METRONOME button, then press the keys marked 1-10 in the illustration below.

* The -/+ keys can also be used to decrease or increase the metronome volume within the range of 1-10.
Demo Songs and Piano Music Pieces

The CS4 digital piano includes a selection of demonstration songs to introduce each internal sound.

* Kawai regret that sheet music for Kawai original demo songs is not available.

In addition to the sound demonstration songs, the CS4 digital piano also features a selection of popular classical piano works from the Baroque and Romantic periods. Notated scores are provided in the separate ‘Classical Piano Collection’ book*, assisting the musical appreciation and study of each piece.

* Depending on market area.

For a complete listing of demo songs and piano music pieces, please refer to page 42 of this owner’s manual.

### 1. Playing the demo songs

Press the DEMO button.

The LED indicator for the DEMO button will start to flash and the Concert Grand demo song will start to play.

* When the Concert Grand demo song has finished, the next demo song (Concert Grand 2) demo song will begin automatically.

Press the DEMO button again to stop the demo.

### 2. Selecting a demo song / piano music piece

*While the demo is playing:*

Press and hold the DEMO button, then press the key assigned to the desired demo song or piano music piece.
Lesson Function

The Lesson function allows budding pianists to practice the piano using a selection of built-in song books. The left and right hand parts for each piece can be practiced separately, while adjusting the tempo allows difficult passages to be perfected.

For a complete listing of available Lesson Function songs, please refer to page 44 of this owner’s manual.

■ Built-in lesson function song books

* Lesson books sold separately - please refer to page 45 of this owner’s manual for more information.

1. Selecting a lesson book/song

■ Entering lesson mode

Press the LESSON button.

The LED indicator for the LESSON button will turn on, indicating that lesson mode is enabled, and the Concert Grand sound will be selected automatically.

■ Selecting a lesson song from Book 1

While lesson mode is selected:

Press and hold the LESSON button, then press the white key assigned to the desired lesson song.

Book 1:
Song no. 5

■ Selecting a lesson song from Book 2

While lesson mode is selected:

Press and hold the LESSON button, then press the left-most black key (A♯-1), and finally press the white key assigned to the desired lesson song.

Book 2:
Song no. 10
2. Listening to the selected lesson song

This page will explain how to play and stop the selected lesson song, and adjust the tempo.

■ Playing the lesson song

After selecting a lesson book and song:

Press the PLAY/STOP button.

The LED indicator for the PLAY/STOP button will turn on, and a one bar count-in will be heard before the song starts to play.

While the lesson song is playing, press the METRONOME button to turn the metronome on/off.

* The metronome time signature and tempo will automatically be set to that of the currently selected lesson song.

■ Adjusting tempo of the lesson song

While the lesson song is playing:

Press and hold the METRONOME button, enter the desired tempo using the lowest 12 white keys marked below, then release the METRONOME button.

* The lesson song tempo can be adjusted within the range of 10-300 bpm.
* The lesson song tempo can be entered precisely, or decreased and increased gradually.

Method 1:
While pressing the METRONOME button, press keys 1, 5, and 0 to set the tempo to 150 bpm, or keys 8 and 5 to set the tempo to 85 bpm.

Method 2:
While pressing the METRONOME button, press the -/+ keys repeatedly to gradually decrease or increase the tempo in 2 bpm increments.

■ Stopping the lesson song

While the lesson song is playing:

Press the PLAY/STOP button again to stop the lesson song.

The LED indicator for the PLAY/STOP button will turn off.
Lesson Function

3. Practicing left and right-hand parts separately

This page will explain how to mute/activate the left and right-hand parts of the selected lesson song, allowing each part to be practiced separately.

The LED indicators for the METRONOME and SOUND SELECT buttons are used to indicate which part (left or right-hand) of the selected lesson song is muted/active.

<table>
<thead>
<tr>
<th>METRONOME button LED</th>
<th>SOUND SELECT button LED</th>
<th>Lesson song playback</th>
</tr>
</thead>
<tbody>
<tr>
<td>On</td>
<td>On</td>
<td>Left and Right-hand parts (default playing mode)</td>
</tr>
<tr>
<td>On</td>
<td>Off</td>
<td>Left-hand part only</td>
</tr>
<tr>
<td>Off</td>
<td>On</td>
<td>Right-hand part only</td>
</tr>
</tbody>
</table>

Muting/activating lesson song parts

After selecting a lesson book and song:

Press the SOUND SELECT button.

The LED indicator for the SOUND SELECT button will turn off (the LED indicator for the METRONOME button will remain turned on), indicating that only the left-hand part of the lesson song is active (i.e. the right-hand part will be muted).

Press the SOUND SELECT button again.

The LED indicator for the SOUND SELECT button will turn on and the LED indicator for the METRONOME button will turn off, indicating that only the right-hand part of the lesson song is active (i.e. the left-hand part will be muted).

Press the SOUND SELECT button once again.

The LED indicator for the SOUND SELECT button will remain turned on and the LED indicator for the METRONOME button will also turn on, indicating that both the left and right-hand parts of the lesson song are active.

Exiting lesson mode

Press the LESSON button.

The LED indicator for the LESSON button will turn off, and the instrument will return to normal operation.
The CS4 digital piano allows up to 3 different songs to be recorded, stored in internal memory, and played back at the touch of a button.

1. Recording a song

1. Selecting a song memory

Press and hold the REC button, then press one of the lowest three white keys to select the desired song memory.

* Selecting a song memory that has already been used to record a song will automatically erase the previously recorded song.

2. Starting the song recorder

Press a key on the keyboard. The LED indicators for the REC and PLAY/STOP buttons will turn on, and recording will start.

* Recording can also be started by pressing the PLAY/STOP button, allowing a rest period or empty bar to be inserted at the beginning of the song.

3. Stopping the song recorder

Press the PLAY/STOP button. The LED indicators for the PLAY/STOP and REC buttons will flash briefly, and the song will be stored in internal memory.

* Do not turn the power off while the song is saving to memory.

* The maximum recording capacity is approximately 15,000 notes, with button and pedal presses also counted as one note.
  * If the maximum recording capacity is reached during recording, the recorder will stop automatically.

* Recorder songs will remain in memory after the power is turned off.
## 2. Playing back a song

### 1. Playing the recorded song

Press the PLAY/STOP button.

The LED indicator for the PLAY/STOP button will turn on, and the recorded song will start to play.

### 2. Playing a song stored in another memory

Press and hold the PLAY/STOP button, then press one of the lowest three white keys to play the desired song memory.

* The selected song will start to play when the PLAY/STOP button is released.

### 3. Erasing recorded songs

⚠️ Warning: This process will erase all three songs stored in internal memory, and cannot be undone.

Erasing the recorder songs

Press and hold the PLAY/STOP and REC buttons simultaneously, then turn the instrument’s power off/on.

All recorder songs stored in memory will be erased.
Keyboard and Sound Settings

The CS4's keyboard and sound settings allow various aspects of the instrument to be adjusted.

### Keyboard and Sound Settings

<table>
<thead>
<tr>
<th>Setting name</th>
<th>Explanation</th>
<th>Default setting</th>
</tr>
</thead>
<tbody>
<tr>
<td>Key-off Release</td>
<td>Specify whether the speed at which keys are released will influence the played sound.</td>
<td>On</td>
</tr>
<tr>
<td>Damper Resonance</td>
<td>Adjust the resonance that is heard when depressing the damper pedal.</td>
<td>Medium</td>
</tr>
<tr>
<td>Reverb</td>
<td>Change the type of reverberation added to the sound.</td>
<td>Small Hall</td>
</tr>
<tr>
<td>Touch</td>
<td>Change the touch sensitivity of the keyboard.</td>
<td>Normal</td>
</tr>
<tr>
<td>Tuning</td>
<td>Increase or decrease the pitch of the keyboard in 0.5 Hz steps.</td>
<td>440.0Hz</td>
</tr>
<tr>
<td>Transpose</td>
<td>Increase or decrease the pitch of the keyboard in semi-tone steps.</td>
<td>0</td>
</tr>
<tr>
<td>Brilliance</td>
<td>Adjust the brightness of the sound.</td>
<td>0</td>
</tr>
</tbody>
</table>

### Changing settings

Press and hold the SOUND SELECT button, then press the key(s) assigned to the desired setting.
1. Key-off Release

The Key-off Release setting determines whether the speed at which keys are released will affect the played sound. When releasing a key very quickly (e.g. staccato) the played sound will be shorter than when releasing a key gently.

- Sounds affected by Key-off Release
  - Concert Grand
  - Concert Grand2
  - Studio Grand
  - Modern Piano

- Key-off Release settings

<table>
<thead>
<tr>
<th>Key-off Release</th>
<th>Description</th>
<th>Key</th>
</tr>
</thead>
<tbody>
<tr>
<td>Off</td>
<td>The sound will not be affected by the speed of key release.</td>
<td>C#0</td>
</tr>
<tr>
<td>On (default)</td>
<td>The sound will be affected by the speed of key release.</td>
<td>D#0</td>
</tr>
</tbody>
</table>

- Changing the Key-off Release type

Press and hold the SOUND SELECT button, then press the key assigned to the desired Key-off Release setting.
2. Damper Resonance

Depressing the sustain pedal of an acoustic piano raises all dampers, allowing the strings to vibrate freely. When a note or chord is played on the piano with the sustain pedal depressed, not only will the strings of the notes played vibrate, but also the strings of other notes, vibrating in sympathetic resonance.

The CS4 digital piano recreates this phenomenon, with the Damper Resonance setting allowing the volume of this resonance to be changed.

**Damper Resonance**

*Sounds affected by Damper Resonance*
- Concert Grand
- Concert Grand 2
- Studio Grand
- Modern Piano

**Damper Resonance type**

<table>
<thead>
<tr>
<th>Damper Resonance type</th>
<th>Description</th>
<th>Key</th>
</tr>
</thead>
<tbody>
<tr>
<td>Off</td>
<td>Disables the damper resonance effect.</td>
<td>C#1</td>
</tr>
<tr>
<td>On (Re)</td>
<td>(Re)Enables the damper resonance effect.</td>
<td>D#1</td>
</tr>
<tr>
<td>Small</td>
<td>Piano sounds produce a small amount of damper resonance.</td>
<td>F#1</td>
</tr>
<tr>
<td>Medium</td>
<td>(default) Piano sounds produce a medium amount of damper resonance.</td>
<td>G#1</td>
</tr>
<tr>
<td>Large</td>
<td>Piano sounds produce a large amount of damper resonance.</td>
<td>A#1</td>
</tr>
</tbody>
</table>

**Changing the Damper Resonance type**

Press and hold the SOUND SELECT button, then press the key assigned to the desired Damper Resonance type.

* To disable/enable the damper resonance effect, press the key assigned to the off/on function.
* If the damper resonance effect is disabled, it will be turned on automatically upon selecting a damper resonance type.
3. Reverb

The Reverb setting adds reverberation to the sound, simulating the acoustic environment of a recital room, stage, or concert hall. The most suitable reverb type is applied automatically when selecting each sound, however it is also possible to select a different reverb type manually if desired.

### Reverb type

<table>
<thead>
<tr>
<th>Reverb type</th>
<th>Description</th>
<th>Key</th>
</tr>
</thead>
<tbody>
<tr>
<td>Off</td>
<td>Disables the reverb effect.</td>
<td>C#2</td>
</tr>
<tr>
<td>On (Re)</td>
<td>(Re)Enables the reverb effect.</td>
<td>D#2</td>
</tr>
<tr>
<td>Room</td>
<td>Simulates the ambiance of a small rehearsal room.</td>
<td>C2</td>
</tr>
<tr>
<td>Lounge</td>
<td>Simulates the ambiance of a piano lounge.</td>
<td>D2</td>
</tr>
<tr>
<td>Small Hall</td>
<td>Simulates the ambiance of a small hall.</td>
<td>E2</td>
</tr>
<tr>
<td>Concert Hall</td>
<td>Simulates the ambiance of a concert hall or theater.</td>
<td>F2</td>
</tr>
<tr>
<td>Live Hall</td>
<td>Simulates the ambiance of a live hall or stage.</td>
<td>G2</td>
</tr>
<tr>
<td>Cathedral</td>
<td>Simulates the ambiance of a large cathedral.</td>
<td>A2</td>
</tr>
</tbody>
</table>

### Changing the Reverb type

Press and hold the SOUND SELECT button, then press the key assigned to the desired Reverb type.

* To disable/enable the reverb effect, press the key assigned to the ‘off/on’ function.
* If the reverb effect is disabled, it will be turned on automatically upon selecting a reverb type.
4. Touch

As with an acoustic piano, the CS4 digital piano produces a louder sound when the keys are struck with force, and a softer sound when the keys are played gently. The volume and tonal character change in relation to the strength and speed of playing - on a digital piano this system is referred to as ‘touch sensitivity’.

The Touch setting allows the touch sensitivity of the keyboard to be conveniently adjusted. There are four different preset touch settings available.

Touch type

<table>
<thead>
<tr>
<th>Touch type</th>
<th>Description</th>
<th>Key</th>
</tr>
</thead>
<tbody>
<tr>
<td>Off</td>
<td>A constant volume is produced regardless of how hard the keys are struck. This setting is recommended for sounds that have a fixed dynamic range such as organ and harpsichord.</td>
<td>C#3</td>
</tr>
<tr>
<td>Light</td>
<td>A louder volume is produced even when playing with a soft touch. This setting is recommended for children and organ players, or for those still developing finger strength.</td>
<td>G#3</td>
</tr>
<tr>
<td>Normal (default)</td>
<td>Reproduces the standard touch sensitivity of an acoustic piano.</td>
<td>F#3</td>
</tr>
<tr>
<td>Heavy</td>
<td>Requires a heavier touch to produce a loud volume. This setting is recommended to those with stronger fingers.</td>
<td>A#3</td>
</tr>
</tbody>
</table>

Changing the Touch type

Press and hold the SOUND SELECT button, then press the key assigned to the desired touch type.
5. Tuning

The Tuning setting allows the overall pitch of the CS4 digital piano to be raised and lowered in 0.5 Hz steps, and may therefore prove useful when playing with other instruments.

Adjusting the Tuning setting: Method 1

Press and hold the SOUND SELECT button, then enter the desired pitch using the number keys indicated below.

* The keyboard pitch can be adjusted within the range of 427 - 453 Hz.
* To reset the pitch to 440.0 Hz, press the Reset key indicated below.

Adjusting the Tuning setting: Method 2

Press and hold the SOUND SELECT button, then press the keys assigned +/- to lower or raise the keyboard pitch in 0.5 Hz steps.

Example A = 441.5 Hz

Enter 4, 4, 1, then press the + key.
6. Transpose

The Key Transpose setting allows the pitch of the CS4 digital piano keyboard to be raised or lowered in semi-tone steps. This is particularly useful when accompanying instruments with different tones, or when a song learned in one key must be played in another key. When transposed, the song can be played in the original key, yet heard in a different key.

Adjusting the Transpose setting

Press and hold the SOUND SELECT button, then press the keys assigned -/+ to lower or raise the keyboard pitch in semi-tone steps.

* The keyboard pitch can be raised or lowered by up to 12 semi-tones.
* To disable/enable the transpose setting, press the key assigned to the 'off/on' function.
7. Brilliance

The Brilliance setting allows the brightness of the CS4 digital piano’s sound to be adjusted.

- Adjusting the Brilliance setting

Press and hold the SOUND SELECT button, then press the keys assigned +/- repeatedly to adjust the brightness of the sound.

* The Brilliance setting can be adjusted within the range of -10 - +10, with +10 being the brightest setting.

* To disable the Brilliance effect, press the key assigned to the 'off' function.
The term MIDI is an acronym for Musical Instrument Digital Interface, an international standard for connecting musical instruments, computers, and other devices to allow the exchange of performance data.

### MIDI terminals

<table>
<thead>
<tr>
<th>MIDI terminal</th>
<th>Function</th>
</tr>
</thead>
<tbody>
<tr>
<td>MIDI IN</td>
<td>Receiving note, program change, and other data.</td>
</tr>
<tr>
<td>MIDI OUT</td>
<td>Sending note, program change, and other data.</td>
</tr>
</tbody>
</table>

### MIDI channels

MIDI uses channels to exchange data back and forth between MIDI devices. There are receive (MIDI IN) and transmit (MIDI OUT) channels. Most musical instruments or devices with MIDI functions are equipped with both MIDI IN and OUT jacks and are capable of transmitting and receiving data via MIDI. The receive channels are used to receive data from another MIDI device and the transmit channels are used to transmit data to another MIDI device.

The illustration below shows three musical instruments, connected together using MIDI.

Transmitting instrument ① sends transmit channel and keyboard information to receiving instruments ②/③. The information arrives at the receiving instruments ②/③.
Receiving instruments ②/③ will respond to MIDI data that is sent if their receive channel is the same as the transmit channel of the transmitting instrument ①.
If the channels do not match, then the receiving instruments ②/③ will not respond to any data that is sent.

For both receiving and transmitting, channels 1-16 can be used.

### Recording/playing with a sequencer

When connected to a sequencer, the CS4 digital piano can be used to record and playback multi-track songs, with separate sounds playing simultaneously on each channel.
MIDI Settings

■ MIDI functions

The CS4 digital piano supports the following MIDI functions:

- **Transmit/receive note information**
  Transmit/receive note information from a MIDI-connected musical instrument or device.

- **Transmit/receive channel settings**
  Specify transmit/receive channels within the range of 1 to 16.

- **Transmit/receive exclusive data**
  Transmit/receive front panel or menu function settings as exclusive data.

- **Multi-timbral mode setting**
  Receive multiple channel MIDI data from a MIDI-connected musical instrument or device.

*Multi-timbral mode setting must be enabled.

- **Transmit/receive Program Change number**
  Transmit/receive program change data to/from a MIDI-connected musical instrument or device.

- **Transmit/receive pedal data**
  Transmit/receive sustain, sostenuto, and soft pedal data from a MIDI-connected musical instrument or device.

- **Receive volume data**
  Receive MIDI volume data sent from a MIDI-connected musical instrument or device.

* Please refer to the ‘MIDI Implementation Chart’ on page 47 for further information regarding the MIDI capabilities of the CS4 digital piano.

■ MIDI settings

<table>
<thead>
<tr>
<th>Function name</th>
<th>Explanation</th>
<th>Default setting</th>
</tr>
</thead>
<tbody>
<tr>
<td>Transmit Program</td>
<td>Specify whether or not program change information is sent when sounds are changed. Send a MIDI program change number from 1 to 128.</td>
<td>Off</td>
</tr>
<tr>
<td>Change Number</td>
<td></td>
<td></td>
</tr>
<tr>
<td>MIDI Channel</td>
<td>Specify the channel used to transmit/receive MIDI information.</td>
<td>1ch</td>
</tr>
<tr>
<td>Local Control</td>
<td>Specify whether or not internal sounds will be heard when the keyboard is pressed.</td>
<td>On</td>
</tr>
<tr>
<td>Multi-timbral mode</td>
<td>Specify whether or not MIDI information can be received on more than one channel.</td>
<td>Off</td>
</tr>
</tbody>
</table>

■ Changing MIDI settings

Press and hold the METRONOME and SOUND SELECT buttons, then press the key(s) assigned to the desired functions.
### 1. Transmit MIDI Program Change

The Send Program Change Number setting determines whether or not the CS4 digital piano will transmit program change information when sounds are changes. It is also possible to transmit a program change number (ranging from 1 to 128) in order to change the sound of an external MIDI device.

**Transmit MIDI Program Change settings**

<table>
<thead>
<tr>
<th>Transmit PGM#</th>
<th>Explanation</th>
<th>Key</th>
</tr>
</thead>
<tbody>
<tr>
<td>Off (default)</td>
<td>The instrument will NOT transmit program change numbers when changing sounds.</td>
<td>C#0</td>
</tr>
<tr>
<td>On</td>
<td>The instrument will transmit program change numbers when changing sounds.</td>
<td>D#0</td>
</tr>
</tbody>
</table>

**Changing the Transmit MIDI Program Change setting**

Press and hold the METRONOME and SOUND SELECT buttons, then press the key assigned to the desired Transmit MIDI Program Change setting.

**Sending a Program Change number**

Press and hold the METRONOME and SOUND SELECT buttons, then enter the desired program change number to send using the number keys indicated below.

* Program change numbers are specified as three digits within the range of 001 - 128.
* The program change number will be transmitted automatically when the key for the third digit number is pressed.

---

Example: Transmit PGM#064
Enter 0, 6, then 4
2. MIDI Channel (transmit/receive)

The MIDI Channel setting allows the transmit/receive channel to be specified. The selected channel will function as both the transmit and receive channel (separate transmit/receive channels cannot be specified).

- Changing the MIDI Channel setting

Press and hold the METRONOME and SOUND SELECT buttons, then press the key assigned to the desired MIDI channel.

* The MIDI channel can be specified within the range of 1-16.
* The MIDI channel is automatically set to ‘1’ when the instrument is turned on (default setting).
3. Local Control

The Local Control setting determines whether the instrument will play an internal sound when the keys are pressed. This setting is useful when using the CS4 digital piano to control an external MIDI device.

**Local Control settings**

<table>
<thead>
<tr>
<th>Local Control</th>
<th>Explanation</th>
<th>Key</th>
</tr>
</thead>
<tbody>
<tr>
<td>Off</td>
<td>The instrument will transmit information to an external MIDI device only.</td>
<td>C#4</td>
</tr>
<tr>
<td>On (default)</td>
<td>The instrument will play an internal sound and transmit information to an external MIDI device.</td>
<td>D#4</td>
</tr>
</tbody>
</table>

**Changing the Local Control setting**

Press and hold the METRONOME and SOUND SELECT buttons, then press the key assigned to the desired Local Control setting.
4. Multi-timbral Mode

The Multi-timbral mode setting determines whether or not the CS4 digital piano is able to receive MIDI information on more than one MIDI channel simultaneously. This allows the instrument to play back multi-track, multi-timbral performance data sent from an external MIDI device.

## Multi-timbre settings

<table>
<thead>
<tr>
<th>Multi-timbre</th>
<th>Explanation</th>
<th>Key</th>
</tr>
</thead>
<tbody>
<tr>
<td>Off (default)</td>
<td>Multi-timbral mode disabled</td>
<td>C#5</td>
</tr>
<tr>
<td>On</td>
<td>Multi-timbral mode enabled*</td>
<td>D#5</td>
</tr>
</tbody>
</table>

* Please refer to the ‘Program Change Number List’ below.

## Changing the Multi-timbral mode setting

Press and hold the METRONOME and SOUND SELECT buttons, then press the key assigned to the desired Multi-timbre setting.

* MIDI data received through channel 10 will not be performed when Multi-timbre is enabled.

![Diagram showing the Multi-timbral mode settings](image)

Power Settings

1. Auto Power Off

The CS4 digital piano features a power saving function that can be used to automatically turn off the instrument after a specified period of inactivity.

* This setting will be stored automatically, and recalled every time the instrument is turned on.

Auto Power Off settings

<table>
<thead>
<tr>
<th>Auto Power Off</th>
<th>Explanation</th>
<th>Key</th>
</tr>
</thead>
<tbody>
<tr>
<td>Off</td>
<td>The Auto Power Off function is disabled.</td>
<td>G6</td>

<td>A6</td>
</tr>
<tr>
<td>60 min.</td>
<td>The instrument will turn off automatically after 60 minutes of inactivity.</td>
<td>B6</td>
</tr>
<tr>
<td>120 min.</td>
<td>The instrument will turn off automatically after 120 minutes of inactivity.</td>
<td>C7</td>
</tr>
</tbody>
</table>

Selecting the Auto Power Off setting

Press and hold the METRONOME and SOUND SELECT buttons simultaneously, then press the key assigned to the desired Auto Power Off setting.

* The Auto Power Off setting will be stored automatically, and recalled every time the instrument is turned on.
Connecting to Other Devices

1. **PHONES jacks (1/4” phone jack)**

   These jacks are used to connect stereo headphones to the CS4 digital piano. Two pairs of headphones can be connected and used simultaneously. When a pair of headphones is connected, sound will not be produced by the speakers.

2. **PEDAL connector (1/4” phone jack)**

   This connector is used to connect the pedal board to the CS4 digital piano (see page 41).

3. **MIDI IN/OUT jacks**

   These jacks are used to connect the CS4 digital piano to external MIDI devices, such as a sound module, or a computer with a MIDI interface.

</tbody>
</table>
Assembly Instructions

Please read these assembly instructions thoroughly before attempting to assemble the CS4 digital piano.
Please ensure that two or more people work on assembling the CS4 digital piano, especially when lifting the main body of the instrument onto the stand in step 3.

Included parts

Before attempting to assemble the CS4 digital piano, ensure that all parts below are included.
A Phillips-head screwdriver (not included) will also be required in order to assemble the instrument.

1. Assembling the side panels ②, pedal board, and pedal support bolt ⑤

Unfasten and extend the pedal connection cable attached to the bottom of the pedal board ⑤.

Attach the pedal board ⑤ to the left and right side panels ② using the alignment screws located on either end of the pedal board. Ensure that the correct side panel is used for the left and right side.

Ensure that the pedal board and side panels make close contact, and that there are no large gaps between the assembled parts.

Insert the four short silver tapping screws ⑩ into the holes as shown, and securely fasten the pedal board to the and left and right side panels.

2. Attaching the back board ④

Allow the assembled pedal board and side panels to stand upright (vertically) on the floor.

Temporarily fix the back board ④ to the left and right side panels using the four long black tapping screws ⑥, leaving a tightening allowance of approximately 1-2 mm.

Then attach the bottom of the back board to the pedal board using the four mid-length black tapping screws ③.
3. Mounting the main body

Ensure that two or more people undertake the following step of the assembly process.

Lift the main body and carefully place it onto the stand.
Position the main body towards the front of the stand, so that the metal fitting holes are visible when viewed from above.
Gently slide the main body backwards until the base engages with the fixings inside the side panels and locks into place.

When lifting the main body onto the stand, be careful not to catch/trap hands and fingers.

Temporarily fix the main body to the stand using two screws, again leaving a 1-2 mm tightening allowance.
Secure the main body to the stand from below, using the four screws (with the flat washer and spring washer).
First, loosely attach all four screws, adjusting the position of the main body on the stand. When all four screws are attached and the main body is correctly positioned on top of the stand, securely tighten all screws.
Then securely tighten all the screws.

4. Connecting the pedal and power cables

Connect the pedal cable to the PEDAL terminal located on the underside of the main body, ensuring the notched plug faces the rear of the instrument.
Connect the AC power cable to the AC IN terminal.
Use the binders to fix the cables in place.

5. Attaching the Cover strips

Attach the cover strips to the rear of the instrument, where the left and right side panels meet the main body.

6. Mounting the Music Rack

Insert the music rack into the top board of the main body.

7. Attaching the headphone hook (optional)

If desired, attach the headphone hook to the underside of the main body using the two tapping screws provided.

8. Adjusting the pedal support bolt

Turn the pedal support bolt anti-clockwise until it makes contact with the floor and supports the pedals firmly.
