The Art of the Piano

A grand piano instrument consists of over nine-thousand precision parts, crafted from fine woods, rigid metals, soft fibres, compound resins, and countless other natural and man-made materials. Simply assembling each component into the mere form of a grand piano is, in itself, an immense undertaking.

Yet the process of crafting such raw materials into a precision instrument, that is capable of expressing the emotional subtleties of the human soul, an instrument that illuminates grand concert halls, leaving audiences enchanted, and an instrument that truly sings with a unique voice all of its own... such a process requires a passionate quest for excellence, with generations of knowledge and expertise.

At Kawai, this process is fittingly regarded as *the art of the piano*.

El Arte del Piano

Un piano de cola consiste en más de nueve mil piezas de precisión, hechas a mano con maderas finas, metales rígidos, fibras suaves, compuestos de resina, y otros incontables materiales naturales y artificiales. Simplemente montar cada componente para formar un piano de cola es, en sí mismo, una empresa inmensa.

El proceso de elaboración a mano y transposición de dichos materiales en un instrumento de precisión, capaz de expresar las delicadas emociones del alma, un instrumento que ilumina salones de conciertos magníficos, encantando a las audiencias, y un instrumento que canta verdaderamente con una voz única...tal proceso requiere una búsqueda apasionada por la excelencia, con generaciones de conocimiento y de maestría.

En Kawai, este proceso se considera como el arte del piano.

GRAND PIANOS

GX Series

The GX Series is a unified line of six superb instruments, offering one consistent level of exceptional grand piano performance. Each GX Grand Piano is the result of uncompromising craftsmanship, honed by generations of experience and refinement.

La serie GX es una línea unificada de seis instrumentos magníficos, ofreciendo un nivel constante de rendimiento excepcional del piano de cola. Cada piano de cola GX es el resultado de artesanía absoluta, perfeccionada por generaciones de experiencia y de refinamiento.

Superb tone is the first hallmark of every Kawai piano, with countless hours of research and development paying dividends in perfecting the GX Series' exceptional sound. Yet, playing the piano is as much a tactile experience as it is auditory; professional pianists demand greater speed, control, and power from every key stroke. Fortunately, consistent, ultra-responsive touch remains a Kawai speciality, with continued innovation providing a truly unparalleled playing experience.

El tono espléndido es el primer sello de cada piano de Kawai, con horas incontables de investigación y de desarrollo para perfeccionar el sonido excepcional de la serie GX. Sin embargo, tocar el piano es tanto una experiencia táctil como auditiva; los pianistas profesionales exigen mayor velocidad, control y fuerza en cada pulsación. Afortunadamente, la pulsación constante y ultra-respuesta sigue siendo una especialidad de Kawai, con la innovación duradera, y a la vez una experiencia de interpretación verdaderamente inigualable.

UPRIGHT PIANOS

K Series

K Series upright pianos offer a level of tonal quality and performance to rival many grand pianos. With sturdy construction for years of reliable service, these instruments are an excellent choice for auditoriums, schools, and other institutional settings.

Los pianos de la serie K ofrecen un nivel de calidad tonal y de funcionamiento para competir con muchos pianos de cola. La construcción robusta asegura años de servicio fiable. Estos instrumentos son una opción excelente para los auditorios, las escuelas y otros escenarios institucionales.

In 1971 Kawai revolutionised piano technology by introducing ABS parts within the fine workings of the piano action. This rigid, atmospherically stable compound material, addressed many of the problems associated with wooden components, such as breakages under continual high stress, and shrinking and swelling due to changes in climate. The Millennium III Upright Action utilises stronger ABS Carbon parts, allowing Kawai engineers to further optimise key repetition and response speed.

En 1971 Kawai revolucionó la tecnología del piano con la introducción de piezas ABS dentro de los selectos engranajes del mecanismo del piano. Este material compuesto, rígido y atmosféricamente estable, solucionó muchos de los problemas que están vinculados con piezas de madera, como roturas por tensiones altas constantes, y cambios de oscilación por cambios del clima. El Millennium III Upright Action utiliza piezas de carbón ABS más fuertes, permitiendo que los ingenieros de Kawai optimicen aún más la repetición de las teclas y la rapidez de reacción.

HYBRID PIANOS

AnyTimeX2

AnyTimeX2 instruments incorporate an acoustic muting feature with powerful digital audio components, allowing pianists to continue enjoying the distinctive feeling of a traditional piano more discreetly, without disturbing family members or neighbours.

Los instrumentos de AnyTimeX2 incorporan un característico silenciador acústico con potentes componentes digitales, que permiten que los pianistas sigan disfrutando más discretamente de la sensación distintiva de un piano tradicional, sin molestar en su entorno.

GRAND FEEL II

The *Grand Feel II* (GFII) keyboard action utilised by the latest Concert Artist instruments features the longest wooden keys and key-pivot available, with triple-sensor detection, graded counterweights, and luxurious *Ivory+Ebony Touch* key surfaces.

El mecanismo del teclado *Grand Feel II* (GFII) utilizado en las últimas funciones de los instrumentos de la series Concert Artist con las teclas de madera y el pivote más largo, con triple detección de sensor, contrapesos graduados, y superficie de teclas de *Ivory+Ebony Touch*.

Responsive Hammer III

The *Responsive Hammer III* (RHIII) keyboard action utilised by the CN series instruments features grade-weighted hammers, triple-sensor key detection, counterweights and a rigid design that ensures a natural piano playing experience.

El mecanismo *Responsive Hammer III* (RHIII) utilizado en los instrumentos de las series CN con macillos de peso graduado, triple sensor de detección de teclas, contrapesos y un diseño resistente que asegura una experiencia muy natural en la interpretación pianística.

LUXURY DIGITAL PIANOS

Classic Series

The Classic Series range of premium digital pianos combine Kawai’s superior keyboard action and sound technology with finely crafted polished ebony cabinets, resulting in a collection of stunning instruments that play as beautifully as they look.

El abanico de pianos digitales Premium de la serie Classic combina el mecanismo de teclado superior de Kawai y la tecnología de sonido, en un mueble de ébano pulido ofreciendo una colección de impresionantes instrumentos con un sonido tan perfecto como su apariencia.
