

KAWAI

DIGITAL PIANO

KDP 75

AN EXCELLENT INTRODUCTION TO KAWAI DIGITAL PIANO QUALITY

Kawai has been crafting musical instruments for over 90 years, maintaining traditional processes while embracing the latest technical innovations. These decades of experience allow our engineers to create superb digital instruments that bring musical enjoyment to players of all levels.

The KDP75 digital piano is the latest addition to Kawai's highly-respected range of award-winning home instruments, combining an extremely authentic weighted-key keyboard action and realistic grand piano sounds within an attractive, yet highly affordable package.

Featuring 88 grade-weighted keys, the KDP75 keyboard responds like a real acoustic action, while its rich concert grand piano sounds are guaranteed to inspire and impress. The instrument also features built-in lesson pieces, and a convenient song recorder with metronome, making the KDP75 an ideal choice for beginners seeking a starter instrument, or more experienced players looking for a second piano for silent practise with headphones.

The new KDP75 – an excellent introduction to Kawai digital piano quality at an attractive price.

Authentic keyboard action

The KDP75's *Responsive Hammer Compact* (RHC) keyboard action has been developed to reproduce the distinctive touch of an acoustic grand piano. Its springless key mechanism, sturdy construction, and accurate hammer sensing system delivers a smooth, natural, and highly authentic piano playing experience.

Moreover, just as acoustic pianos utilise heavier bass hammers and lighter treble hammers, the RHC keyboard action also employs different hammer weights, appropriately graded for each playing range. Such realistic details provide greater stability during powerful fortissimo passages, while also assisting with pianissimo control.

Realistic grand piano sounds

The KDP75 digital piano captures the beautiful sound of the highly-acclaimed Shigeru Kawai *SK-EX* concert grand piano. All 88 keys of this exceptional instrument have been meticulously recorded, analysed, and faithfully reproduced using proprietary *Harmonic Imaging* technology, to deliver a rich and expressive playing experience.

Convenient digital features

The KDP75 includes a selection of different instrument voices, built-in lesson songs, and the ability to record and playback performances. When connected to a phone or tablet via USB, players can also control the instrument using Kawai's *Piano Remote* app, or expand its functionality with a wide range of other music-related apps.
