

# Software Update (CA97)

This document contains instructions for updating the system software of the Kawai CA97 digital piano. Please read these instructions thoroughly before attempting to perform the software update.

## ■ Checking the software version

To check the current software version installed on the CA97, press and hold the **ORGAN**, **HARPSI&MALLETS**, and **STRINGS** buttons simultaneously, then turn the instrument on.

The current software version will be shown in the LCD display.

If the version number is **greater than** or equal to the update version, no further action is necessary.

\* Turn the instrument off and on to return to normal operation.

If the version number is **lower than** the update version, please continue to follow the instructions below.

## 1. Prepare the USB memory device

Copy the **CA97\_060.SYS** update file to the root folder of a USB memory device.

\* The USB device should be formatted to the 'FAT' or 'FAT32' filesystem.

## 2. Connect the USB memory device

*While the instrument is turned off:*

Connect the prepared USB memory device to the USB port.

## 3. Start the update

Press and hold the **1**, **2**, and **3** FUNCTION buttons simultaneously, then turn the instrument on.

The update process will start automatically after a few seconds, and status messages will be shown in the LCD display.

\* Do not remove the USB memory device while the software update is in progress.

## 4. Finish the update, disconnect the USB memory device

After approximately 30 seconds, a message will be shown in the LCD display, indicating that the software update has been successful.

Disconnect the USB memory device, then press and hold the **POWER** switch to turn the instrument off. When the instrument is turned on, the updated software will be used automatically.

\* If the software update is unsuccessful, restart the process from step 1.

# Software Update (CA97/CA67)

## ■ CA97/CA67 system software changelog

---

### V1.06 (May 2015)
